

Long Range Strike
Multiple Launch Rocket System

War Fighters Readiness
Simulation and Training

Networked Forces
Defense ICT

In the changing defence and security environment, being a technological superiority is a step ahead.

.... But that is not all.

Our mission is to catalyse the defense industry through the investment in research and development, creating a sustainable defense capability growth as well as an economic benefit which provide a giant leap to become a defence self-reliance and guarantee the safety of our nation.
